Your Rights Under Section 504

NEVIS PUBLIC SCHOOL

You have the right to be informed by the school district of your rights under Section 504. This is a notice of you and your child's rights under Section 504 and the rights you have if you disagree with the school district's decisions.

WHAT IS SECTION 504?

Section 504 of the Rehabilitation Act of 1973, commonly called "Section 504," is a federal law that protects students from discrimination based on disability. Section 504 assures that students with disabilities have educational opportunities and benefits equal to those provided to students without disabilities. To be eligible, a student must have a physical or mental impairment that substantially limits one or more major life activity.

YOUR CHILD'S EDUCATION

Your child has the right to:

- Receive a free and appropriate public education.
- Participate in and benefit from the district's educational programs without discrimination.
- Be provided an equal opportunity to participate in the district's nonacademic and extracurricular activities.
- Be educated with students who do not have disabilities to the maximum extent appropriate.
- Be educated in facilities and receive services that are comparable to those provided to students without disabilities.
- Receive accommodations and/or related aids and services to allow your child an equal opportunity to participate in school activities.
- Receive educational and related aids and services without cost, except for those fees imposed on the parents of children without disabilities.
- Receive special education services if needed.

YOUR CHILD'S EDUCATIONAL RECORDS

You have the right to:

- Review your child's educational records and to receive copies at a reasonable cost. You will not be charged if the cost would keep you from reviewing the records.
- Ask the district to change your child's education records if you believe that they are wrong, misleading, or are otherwise in violation of your child's privacy rights. If the district refuses this request, you have the right to challenge the refusal by requesting an impartial hearing.
- A response to your reasonable requests for explanations and interpretations of your child's education records.

THE SECTION 504 PROCESS

Your child has the right to an evaluation before the school determines if he or she is eligible under Section 504. You have the right to:

- Receive notice before the district takes any action regarding the identification, evaluation, and placement of your child.
- Have evaluation and placement decisions made by a group of persons, often called a "504 team", including persons who know your child, the meaning of the evaluation information, and the placement options available.
- Have evaluation decisions based on a variety of sources, such as aptitude and achievement tests, teacher recommendations, physical conditions, medical records, and parental observations.
- Refuse consent for the initial evaluation and initial placement of your child.

If your child is eligible under Section 504, your child has a right to periodic re-evaluations, including re-evaluations before any significant change is made in your child's placement.

IF YOU DISAGREE WITH THE DISTRICT'S DECISION

If you disagree with the district's decisions regarding your child's identification, evaluation, educational program, or placement under Section 504, you may request mediation or an impartial due process hearing. You and your child have the right to take part in the hearing and have an attorney represent you. Hearing requests and other concerns can be made to your district's Section 504 Coordinator:

You have the right to file a complaint of discrimination with the U.S. Department of Education's Office for Civil Rights (OCR), or to file a complaint in federal court. Generally, an OCR complaint may be filed within 180 calendar days of the act that you believe was discriminatory. The regional office is located at:

WELCOME: STUDENTS/PARENTS/GUARDIANS

Welcome to the 2016-2017 school year at Nevis School.

The Student/Parent booklet is a consolidation of various procedures and policies which are followed at our school and which encourages promptness, good attendance, and positive behavior of all students.

We strive to maintain an attitude at our school, which encourages each student and staff member to perform to the highest level of their ability. In order to achieve that level of success a person is expected to be responsible.

The policies and procedures in this handbook apply to all students and have been approved by the Nevis Board of Education. It is essential that you read this handbook completely and become familiar with its contents.

Parents are encouraged to contact your children's teachers and administration to discuss items regarding your children's education.

For consistency, further reference to parent/guardian will state just parent.

VISION STATEMENT

The Nevis Schools will be an educational system that promotes independent learning as a lifelong process, develops confident & critical thinkers, and helps students to maximize their potential to be productive members of their vocation, community, and family.

SCHOOL COLORS: Green and Gold

SCHOOL MASCOT: Tigers

SCHOOL SONG

Stand up and cheer for old Nevis High
 We never lose 'cause we always try
 We're the Nevis Tigers
 We do our best we want success
 Stand up and fight for our Nevis High
 We will succeed in all that we try
 We're the Nevis Tigers
 Hats off to Victory

SPORTSMANSHIP CODE

As students of Nevis School District, we take great pride in a sportsmanship code:

- A. We will always show loyalty to our school in all of its activities
- B. We will strive to respect our opponents at all times
- C. We will be loyal to our team at all times—win or lose
- D. We will observe the time to be quiet and the time to cheer at games
- E. We will endeavor to respect the decisions of the officials
- F. We will try to accept the penalties graciously
- G. We will try to put forth our best effort
- H. We believe there are times when we should give credit to an individual's play—even an excellent job done by opponents
- I. We do believe in playing according to the accepted rules of the game
- J. We honestly believe that to have a successful team we must also have a desire to win.

THE STAR SPANGLED BANNER

Francis Scott Key, 1894

O say, can you see, by the dawn's early light,
 What so proudly we hail'd at the twilights last gleaming?
 Whose broad stripes and bright stars, thro' the perilous fight
 O're the ramparts we watch'd, were so gallantly streaming?
 And the rockets' red glare, the bombs bursting in air,
 Gave proof thro' the night that our flag was still there.
 O say, does that star-spangled banner yet wave
 O're the land of the free and the home of the brave!

THE PLEDGE OF ALLEGIANCE TO THE FLAG

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all."

Elementary students will recite the Pledge daily and the High School students will recite the Pledge once each week. Those students not wishing to participate will be asked to remain silent while the pledge is recited by the other students.

CITIZENSHIP

It is important that you conduct yourself so that you will be a credit to your family, to yourself, and to your school. Your enrollment in Nevis School has increased your responsibilities. You will be expected to be a good citizen both in and out of the classroom and at school activities. This will mean that you will have to cooperate with school employees, the adult community, and your fellow students in a way that will be most representative for you and your school. When you use the own businesses and facilities, be a good citizen and a good representative of Nevis School. Use common sense and courtesy at all times.

NEVIS PUBLIC SCHOOL – SCHOOL WIDE INFORMATION

ACADEMIC POLICIES

Grades (Grades 4 – 12)

All quarter, semester and final grades in Nevis Public School are based on the following scale:

93 – 100	A	73 – 76	C
90 – 92	A-	70 – 72	C-
87 – 89	B+	67 – 69	D+
83 – 86	B	63 – 66	D
80 – 82	B-	60 – 62	D-
77 – 79	C+	< 60	F

Parent-Teacher Conferences

- Teachers are available before school starts and after school is out for parent-teacher meetings, parental concerns, and student concerns.
- Fall and spring conferences will be scheduled. Parents are asked to come if at all possible. At this time, the teacher will be prepared to give the parents a report of the student's progress and will discuss any problems the child may have.
- Additional conferences may be arranged if necessary.

Progress Reports

For those who need special attention or for parents who request, progress reports may be sent to parents any time between marking periods. These reports do not necessarily mean that students are failing but that a deficiency may be noted which needs correction.

Parents of students in grades 4-12 may log on to a secure website and check their child's progress at any time. Contact the high school office to obtain password and username.

Mid-term progress reports will be sent home with students at the middle of each term when requested. Parents who have access to their students' grades through the secure website will not receive copies in the mail unless requested.

Report Cards

Grades are a teacher's academic evaluation of student's work and become a part of their permanent record. Students make the record, the school records it. Report cards are processed four times a year, at the end of each nine week term. Parents who receive their students' grades through the secure website will not receive copies in the mail unless requested. Year-end report cards will be mailed for all students. Parents are encouraged to review the report cards with their children and consult with their teachers. Students will not receive any Incompletes. All classes will be graded according to what the student has done.

ACCESS RIGHTS-CUSTODIAL/NON-CUSTODIAL PARENT'S POLICIES

By statute, a non-custodial parent, just as a custodial parent, has the right to access and receive copies of school records and information, to attend parent-teacher conferences and to be informed about their child's welfare, progress and status. This includes, but is not limited to, access to school records, notification of school events, attendance at parent-teacher conferences, attendance at individual education program meetings, etc. The only exception to this rule is where access by the non-custodial parent is specifically limited or prohibited by a court order.

The law generally allows access by both the custodial and non-custodial parent. The school district cannot restrict the rights of the non-custodial parent without notice of a court order providing otherwise. The custodial parent is responsible for advising the school district when a court has issued an order limiting or restricting access by the non-custodial parent and provide a copy of the order to the school district. The parent is also responsible for providing a copy of any revised orders that affect custody or visitation. If presented with such an order, the principal and all other administrators, teachers or other persons who have supervision of the child or the child's records should be made aware of the order.

Any parent with legal/custodial rights will be permitted to pick up his/her children from school, unless a current restraining order is on file in the school.

ACCIDENTS AND ILLNESS AT SCHOOL

All accidents, no matter how minor, must be reported to the teacher in charge or to the principal. If a student becomes ill, the student should report to the nurse, call home at the nurse's recommendation, get a "permit to leave the building" pass, and have parents come and get him/her, or parental permission for the student to leave. The school is not responsible for student accident insurance.

AIDS AND CERTAIN OTHER COMMUNICABLE DISEASES AND INFECTIOUS CONDITIONS AMONG STUDENTS AND EMPLOYEES

Nevis School District has in effect a state-recommended policy regarding students and employees with AIDS and certain other communicable diseases and infectious conditions. A copy is available in the principal's or superintendent's office.

ALCOHOL, TOBACCO AND DRUGS

Students who are distributing or caught in possession of drug paraphernalia, using, distributing or under the influence of tobacco products, including chewing tobacco, e-cigarettes, alcohol and/or illegal drugs, or prescription drugs on school property or at a school-sponsored event are subject to the school's discipline policy. Minnesota State High School League penalties will apply to students who participate in activities. This policy includes student vehicles parked on school property, while riding in school buses and while participating in any event, whether at home or away.

ANNOUNCEMENTS

Notice of school activities:

- A. The High School office must receive announcements by 8:30 a.m. They should be brief and the class/club advisor must sign them.
- B. The daily bulletin will be sent to teachers via the computer to read during 2nd period.
- C. The High School hallway and the Media Center will have written announcements posted. They are also posted on the school web site.
- D. It is the student's responsibility to know what is in the bulletin.

APPEALS

Students/parents who are concerned about a specific disciplinary action or student conduct violation should consult with their parents, teachers, and/or student support services staff (counselors, etc.) to informally resolve the concern. If the concern cannot be resolved using these informal channels, parents may appeal their concerns through the channels listed in the appeals process shown below.

Appeals Process

- A. Principal
- B. Superintendent or Designee
- C. Board of Education

ASSEMBLIES

During the year there are school programs. Please follow these guidelines:

- A. The PA system or the teacher will announce when students should report for the program.
- B. Teachers will chaperone their respective classes.
- C. Common courtesy is the rule at all times.
- D. Students are to remain in the assembly for the duration of the program.
- E. If students cannot behave, chaperones will ask them to leave. These students may not attend future programs.
- F. The principal will use his/her discretion when assigning seating sections.

ATTENDANCE POLICIES

Regular and consistent school attendance is one of the factors contributing to success in school. The State of Minnesota requires schools to keep track of student attendance and requires that the school stay in communication with the parents about their child's attendance. Some of the rules about attendance are listed here. A copy of the full policy can be obtained in the superintendent's or principal's office.

If your child is going to be absent please call us at 218-652-3500. This is very important. It helps us so we do not worry about your child and also helps us in planning the day's events.

If a student is seen at medical facility and brings a note back from the doctor/dentist stating the time that he/she was seen, this absence will be an excused absence. If doctor/dentist recommends that the student may not attend school, this must be stated on the note that is returned to the office. Court, college visits and driver's test will be excused absences if a note is returned to school stating when the student was there.

A. Absence:

1. Excused absences:

- Illness,
- Death of a family member / funeral,
- Serious illness of an immediate family member,
- Medical, dental, counseling and legal appointments,
- Driver's education permit tests and driver's license road tests,
- Court appearances,
- Suspension,
- School sponsored field trips or activities,
- Pre-excused and verified college visits,
- Pre-excused and verified senior pictures and
- Active military duty.

2. Unexcused absences:

Calling the school about absences does not make them excused. An excused absence must be for legitimate reasons as listed above.

- Unverified absences – (absences that have not been verified by parents after 2 days),
- 3 unexcused tardies will equal 1 unexcused absence,
- Truancy,
- Over slept, missed the school bus / car wouldn't start,
- Babysitting,
- Work – except as arranged by the school for school credit,
- Errands
- Shopping, haircuts and other personal errands,
- 'Walking out' of class without permission,
- Vacations – unless adequate arrangements have been made with the school prior to the vacation (3 day notice is required),
 - Students are required to obtain all assignments prior to leaving on vacation.
 - All assignments must be turned in immediately upon returning from vacation.
 - Notification by the parent of the intended vacation without obtaining assignments does not amount to an adequate arrangement.
- Unverified college visits.

3. The principal, not the parent or student, will determine the validity of the excuse.

B. Attendance at After School Events

Students in grades 6-12 may attend events without parent supervision, while students in Pre K - 5 must be accompanied by a parent.

C. Attendance Statutes

Rules that govern attendance:

1. MN Statute 120A.22 Subd. 5 -- Minnesota Compulsory Attendance Law—Children between the ages of 7 and 17 must attend a public or private school each year during the entire time the public schools or the district in which the child resides are in session.
2. MN Statute 120A.34 -- Any person who shall fail or refuse to send a child to school as required by law shall be guilty of a misdemeanor.
3. MN Statute 260A.03 -- Upon the child's initial classification as continuing truant, the school shall notify the parent or legal guardian. The parent/guardian is obligated to compel the attendance of the child at school and parents/guardians who fail to meet this obligation may be subject to prosecution.

Excessive Absences

1. Students who have excessive absences will be dealt with on an individual basis by the principal, with help from the teacher, parent and student. The school social worker may also be asked to help. Recommendations to the county attorney for legal intervention will be made on an individual basis.

D. Athletics

1. Participants will be in school all day on the day of an event in order to participate, and
2. Students will be in school all day the day after practice, contest or event in order to be eligible to participate in the next event.
 - If a bus is late (after 1:00 a.m.):
 - The student's parent must call the school by 8:30 a.m. for an excused tardy, and

- The student must be in school by 11:24 a.m. in order to maintain eligibility.
 - Skipping a class will result in an automatic 1 game/event ineligibility.
 - Extenuating circumstances exceptions may be granted by the administration.
 - 3. Illness: Students who miss school due to illness during the day will not participate that night.
 - Medical appointments will be excused at the principal's discretion and must be pre-excused before 8:30 a.m. and must have slip from the medical office.

E. Tardies

Elementary:

1. Tardy is after 8:30 a.m. and after 12:00 p.m.

High School:

1. Tardy is up to 5 minutes late to class, or late to class without an office pass excusing the lateness.
2. Lateness of more than 5 minutes will be considered an unexcused absence.
3. If the student is tardy, the student must secure a "Tardy" slip from the high school office.
4. 3 unexcused tardies is equal to 1 unexcused absence.

F. Truancy

In the **elementary**, a pupil is "continuing truant" if absent on three or more class periods on three days without valid excuse in a school year. - A. K-3 teachers will use their own discretion on consequences. At times, they may use the Alternative Room facility for time outs or missed recess.

When a discipline referral is made, it is typically handled by the Elementary Dean of Students, where it is treated as a learning, or a social skill problem rather than a discipline problem.

- B. The behavior violations in 4th, 5th, and 6th grade have two categories: Major and Minor Violations:

Minor Violations are as follows: class disruption, chronically unprepared work, disrespect to staff, eer, or property, profanity (said to self), tardy three times, inappropriate behavior in hall, lunchroom, or playground, and too aggressive verbally or physically. These students are sent to the AR room for a period of time:

- During the time students are in the AR they are not allowed to participate in any special school activities.
- The student also loses privileges for any after school activities and must leave the building **by 3:20** on the day AR is served.

Major Violations are as follows: bullying, fighting/assault, chemical use (drug alcohol, tobacco, inhalants), theft, truancy leaving the building without permission, not attending school unexcused, not reporting to class, harassment (physical, verbal, sexual), swearing or use of suggestive gestures at someone, cheating, and insubordination.

A note is required describing the health related reason of any students who are to stay in from recess.

DISTRICT & STATE POLICIES

BULLYING PROHIBITION POLICY

A. Purpose

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student’s ability to learn and/or a teacher’s ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

B. General Statement of Policy

- 1. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student’s act of bullying. This policy also applies to any student whose

conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyber bullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.

2. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
3. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
4. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
5. False accusations or reports of bullying against another student are prohibited.
6. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
 - a. The developmental ages and maturity levels of the parties involved;
 - b. The levels of harm, surrounding circumstances, and nature of the behavior;
 - c. Past incidences or past or continuing patterns of behavior;
 - d. The relationship between the parties involved; and
 - e. The context in which the alleged incidents occurred.
 - i. Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.
 - ii. Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.
 - iii. Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.
 - f. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

C. Definitions

For purposes of this policy, the definitions included in this section apply.

1. "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:
 - a. an actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
 - b. materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. The term, "bullying," specifically includes cyber bullying as defined in this policy.
2. "Cyber bullying" means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.
3. "Immediately" means as soon as possible but in no event longer than 24 hours.
4. "Intimidating, threatening, abusive, or harming conduct" means, but is not limited to, conduct that does the following:
 - a. Causes physical harm to a student or a student's property or causes a student to be in reasonable fear of harm to person or property;

- b. Under Minnesota common law, violates a student’s reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
 - c. Is directed at any student or students, including those based on a person’s actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.
5. “On school premises, on school district property, at school functions or activities, or on school transportation” means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student’s walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.
 6. “Prohibited conduct” means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.
 7. “Remedial response” means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.
 8. “Student” means a student enrolled in a public school or a charter school.

D. Reporting Procedure

1. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
2. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
3. The building principal, the principal’s designee, or the building supervisor (hereinafter the “building report taker”) is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

4. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
5. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.

6. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
7. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

E. School District Action Plan

1. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
2. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
3. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
4. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See MSBA/MASA Model Policy 506) and other applicable school district policies; and applicable regulations.
5. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
6. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

F. Retaliation or Reprisal

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

G. Training and Education

1. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based

on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.

4. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
5. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

MEDICATION POLICY

School District 308 has adopted the following policy for medication:

The School District wishes to insure the health, safety and well being of all its students. The school recognizes that the primary dispersal of any medication is a physician/parent responsibility. The school also realizes that the physician/parent is not always available to dispense medications on a time schedule or when the need arises.

The school, in keeping with their philosophy, wishes to adopt the following procedures for the dispersal of prescription and non-prescription medications.

- A. Prescription Medication Administration
 1. The parent shall provide the school with the following information:
 - a. Child's name
 - b. Physician's Rx (including medication action and side effects)
 - c. Up to date, labeled prescription bottles
 - d. Parent signature and date
- B. The school shall provide the following:
 1. List of personnel giving medication
 2. Comprehensive record sheet for each child
 3. Original medication inventory
 4. Date, dosage, time administered
 5. Dispenser's initials
 6. Secure medication storage facility

 1. The parent shall provide the school with the following information:

 - e. Parent signature and date
- D. All other non-prescription medication carried to school by students must be turned into the nurse. Medication of any kind should not be stored in lockers.
- E. Inhaler Use

According to MN Statute 121A Subd. 2 students can administer their own prescription inhalers if the district has received written authorization from the pupil's parent permitting the student to self-administer the medication, the inhaler is appropriately labeled for that student and the parent has not requested school personnel to administer the medication for the student. The parent must submit written authorization for the student to self-administer every school year. If students are to self-administer, the inhalers must be kept in their pocket, locker, or other secure location agreed upon by parent and/or teacher. Inhalers are to never be left unattended where other students would have access to them. If school personnel are to administer inhalers the prescription medication policy must be followed.

PEST CONTROL MATERIALS

Nevis School District utilizes a licensed, professional pest control service firm for the prevention and control of rodents, insects, and other pests in and around the district's buildings. Their program consists of:

- A. Inspection and monitoring to determine whether pests are present, and whether any treatment is needed;
- B. Recommendations for maintenance and sanitation to help eliminate pests without the need for pest control materials;

- C. Utilization of non-chemical measures such as traps, caulking and screening; and
- D. Application of EPA-registered pest control materials when needed.

Pests can sting, bite, cause contamination, damage property, and spread disease; therefore, we must prevent and control them. The long-term health effects on children from the application of such pest control materials, or the class of materials to which they belong, may not be fully understood. All pest control materials are chosen and applied according to label directions per federal law.

An estimated schedule of interior pest control inspections and possible treatments is available for review or copying in the custodial area. A similar estimated schedule is available for application of herbicides and other materials to school grounds. Parents of students may request to receive, at their expense, prior notification of any application of a pest control material, should such an application be deemed necessary on a day different from the days specified in the schedule.

WEAPONS POLICY

Weapons Use and Possession. Minnesota schools are weapon-free zones. Recent laws allow severe penalties for anyone caught possessing or using a dangerous weapon within one city block or 300 feet of any Minnesota school.

Students are forbidden knowingly and voluntarily to possess, handle, transmit, or use any instrument in school or on school grounds (or during school activity) that is ordinarily or generally considered a weapon. An object which could be used to injure another person and which has no school related purpose for being in school or on school grounds will be considered a weapon for the purpose of policy.

The following are examples of instruments ordinarily or generally considered weapons: knives, guns, lead pipes, chains, chuck sticks, throwing stars, darts, metal knuckles, blackjacks, unauthorized tools, explosives, ammunition, paint ball guns, or other chemicals and "look-a-likes".

A student who brings a weapon to school may be expelled for a period of up to one calendar year. Violation of this policy shall be in accordance with local district policy and/or the Gun-Free Schools Act of 1994. The principal, under appropriate circumstances, may recommend and the board may impose a lesser penalty. Police will be contacted when there is a suspected violation of criminal laws concerning weapons.
